OVERVIEW

Offshore Training Solutions is a multi accredited/ approved training provider (ATP) , offering a wide range of courses and bespoke training packages for the offshore wind and workboat sectors.

We understand that time and money are often high in the list of barriers for workboat crew seeking career progression. We also understand the need for quality training vs ‘box ticking’ exercises.

Approved by the MCA and IYT (International Yacht Training Worldwide), Offshore Training Solutions is able to offer bespoke progression packages for current deckhands seeking a Master's position onboard. We have designed training record books and formed agreements with the relevant governing bodies to deliver up to 80% of the required training in the workplace, onboard, working closely with crewing/manning departments.

BENEFITS

Our ‘onboard’ approach to training comes with many benefits, including:

- Minimal need for accommodation and travel fee
- Minimal need for cover / use of annual leave
- Comfortable and familiar training environment
- Train as you work
- Building seetime and experience whilst training
- Self-paced
- Incorporating your own vessel/operator Safety Management System(s) (SMS)
- Blended learning (practical & theory)
- Theory exams held remotely (invigilated) at times to suit
- Practical exams held onboard at times to suit
- Monthly payment / subscription plans, 30-day cancellation notice period
- Funding options available
- Eligible for tax offset & salary sacrifice schemes
